

EXPOFORUM

THE 14TH ST. PETERSBURG INTERNATIONAL HEALTHCARE FORUM

OCTOBER 13-15, 2026

On **October 13-15, 2026**, the **14th St. Petersburg International Healthcare Forum** (hereinafter referred to as the **SPIHF-2026, the Forum**) will take place in **St. Petersburg, at the ExpoForum Convention and Exhibition Centre**. The Forum has been held since 2013, and is one of the key convention and exhibition events in the field of public health and the development of domestic healthcare.

The Forum mainly purposed at promoting the implementation of Russia's national projects aimed at achieving the country's technological leadership, improving the healthcare system, developing medical and health-improving tourism, solving demographic problems, and increasing the citizens' life expectancy.

The concept of the Forum has been approved, with its business program to have been structured by target audience and spread over three days:

13 October

Dialogue with government: interacting with authorities, discussing strategies and decisions at the state level. The key event will be the Plenary Session **"Health Preservation as the Path towards Active Longevity"**.

14 October

Doctor - Specialist Day: the venue for the professional community, exchanging experience, discussing innovations and best practices.

15 October

Doctor - Patient Day: community outreach, consultations, educational events, and health awareness raising.

Each day of the Forum is a unique opportunity for dialogue, knowledge exchange, and interaction between all the participants of the healthcare system.

The exhibition of medical-industry achievements

In 2026, the exhibition area will be over 3,500 sq. m. The exhibition will cover 7 thematic sections: medical engineering, equipment and diagnostics; digitalization of the industry and artificial intelligence; military medicine; medical rehabilitation; health for everyone; professional development; industry media and journalism.

The SPIHF-2026 Congress program will include 13 thematic areas. The key event will be the Plenary Session **"Health Preservation as the Path towards Active Longevity"**. At the Forum, the most important challenges and prospects of healthcare will be discussed. The main themes for discussing are fighting against cancer and cardiovascular diseases; strategies for maintaining reproductive health; active longevity; digitalization of medicine and introducing artificial intelligence. Particular attention will be paid to innovations in surgery, their practical application, developing military medicine of the 21st century, as well as the future development of the industry.

The SPIHF-2026 venue will become a meeting place for representatives of government authorities, scientific, educational, medical and sanatorium organizations, small, medium and large businesses, leading Russian and foreign experts in the field of medicine, pharmacy and information technology, as well as representatives of the interdisciplinary community.

The SPIHF-2026 is organized by ExpoForum International LLC.
